---	---	---	---

The figure consists of two side-by-side scatter plots. Both plots have 'number' on the x-axis (values 1, 6, 30) and 'percentage' on the y-axis (values 0%, 5%, 25%). The left plot shows a positive correlation for 'number' 1 and 6, and a negative correlation for 'number' 30. The right plot shows a positive correlation for 'number' 1 and 6, and a negative correlation for 'number' 30. The y-axis is labeled 'percentage' and ranges from 0% to 25%. The x-axis is labeled 'number' and ranges from 1 to 30.
